CALL FOR STUDENT PROPOSALS

The Bethel College Undergraduate Research and Creative Activity Symposium will be held Saturday, May 1, 2010. Designed as an opportunity to celebrate and showcase the many forms of in-depth, individual research and creative endeavor college-wide, this forum may include senior thesis presentations across the curriculum, along with culminating recitals and art shows, or lecture performances.

One mode of presentation to consider is the poster session. In a poster session, student research is presented through posted visual materials such as pictures, photographs, and text. These exhibits are intended to allow informal discussions between poster presenters and viewers during the time allotted for the poster session.

*The committee encourages both lower-and upper-level students to submit proposals.*

The application process for participation in this symposium consists of two parts:

1. Students will submit a proposal by Monday, April 12, to their sponsoring professor. The proposal must include the presentation's title, mode of presentation (poster session or traditional presentation), the class out of which the project grew, and any special equipment needs (projector, lab, computer, etc.). Additionally, proposals should include a brief paragraph describing the presentation.

2. Sponsoring professors will forward selected presentations to Larry D. Friesen by 5 PM Friday, April 16.

This symposium will be a wonderful showcase of the quality work produced by Bethel College students. Don’t miss out on your chance to be a part of it!

**Direct inquiries to the URICA Committee**
