Is your institution a member of an HEA Title II Teacher Quality Partnership (TQP) grant awarded by the U.S. Department of Education?

<https://www2.ed.gov/programs/tqpartnership/awards.html>

- Yes
 No

If yes, provide the following:

AWARD YEAR

GRANTEE NAME

PROJECT NAME

GRANT NUMBER

LIST PARTNER DISTRICTS/LEAS (ONE PER LINE)

LIST OTHER PARTNERS (ONE PER LINE)

PROJECT TYPE

- Residency
- Pre-baccalaureate
- Both Residency and Pre-baccalaureate

List of Programs

On this page, review the list of teacher preparation programs offered by your institution of higher education (IHE) or organization. If you submitted an IPRC last year, this list of programs is pre-loaded from your prior year's report. If your IHE offers both traditional and alternative programs, be sure to enter the programs in the appropriate reports. For the traditional report, list all traditional programs within the IHE. For the alternative report, list all alternative programs within the IHE. You may edit, delete, and insert new rows as necessary.

After reviewing and updating as necessary, save the page using the floating save box at the bottom of the page. The system will automatically total the number of programs for you.

THIS PAGE INCLUDES:

>> [Program Information](#)

Program Information

List each teacher preparation program included in your traditional route. Indicate if your program or programs participate in a Teacher Quality Partnership Grant awarded by the U.S. Department of Education as described at <https://www2.ed.gov/programs/tqpartnership/awards.html>.

Teacher Preparation Programs	Teacher Quality Partnership Grant Member?	Update
Art Pre-K-12	No	
Biology 6-12	No	
Chemistry 6-12	No	
Elementary Education K-6	No	
English Language Arts 6-12	No	
Health Education Pre-K-12	No	
History, Government, and Social Studies 6-12	No	
Mathematics 6-12	No	
Music Pre-K-12	No	
Physical Education Pre-K-12	No	
Speech and Theater 6-12	No	

Total number of teacher preparation programs: 11

Program Requirements

THIS PAGE INCLUDES:

- >> [Admissions](#)
- >> [Undergraduate Requirements](#)
- >> [Postgraduate Requirements](#)
- >> [Supervised Clinical Experience](#)

On this page, review and enter information about the program requirements for admission into the program, program completion, and supervised clinical experience. If you submitted an IPRC last year, much of this page is pre-loaded from your prior year's report. If your IHE offers both traditional and alternative programs, be sure to specify the requirements in the appropriate reports. For the traditional report, provide the requirements for traditional programs within the IHE. For the alternative report, provide the requirements for the alternative programs within the IHE.

After reviewing and updating as necessary, save the page using the floating save box at the bottom of the page.

Admissions

1. Indicate when students are formally admitted into your initial teacher certification program:

Other

If Other, please specify:

Following completion of requirements, may be during different years, generally Sophomore year

2. Does your initial teacher certification program conditionally admit students?

- Yes
 No

3. Provide a link to your website where additional information about admissions requirements can be found:

<http://www.bethelks.edu/sites/default/files/2018-03/course-catalog.pdf>

4. Please provide any additional information about or exceptions to the admissions information provided above:

Candidates are required to be admitted into the Teacher Education Program prior to taking upper level education courses. Transfer students are given a one-semester grace period to complete the entrance requirements.

Undergraduate Requirements

Please provide the following information about your teacher preparation program's entry and exit requirements. ([§205\(a\)\(1\)\(C\)\(i\)](#))

1. Are there initial teacher certification programs at the undergraduate level?

- Yes
 No

If yes, for each element listed below, indicate if it is required for admission into or exit from any of your teacher preparation program(s) at the undergraduate level. If no, leave the rest of the page blank (or [clear responses already entered](#)) then click save at the bottom of the page.

Element	Required for Entry	Required for Exit

2. What is the minimum GPA required for admission into the program? (Leave blank if you indicated that a minimum GPA is not required in the table above.)

3. What was the median GPA of individuals accepted into the program in academic year 2016-17?

4. What is the minimum GPA required for completing the program? (Leave blank if you indicated that a minimum GPA is not required in the table above.)

5. What was the median GPA of individuals completing the program in academic year 2016-17?

6. Please provide any additional information about the information provided above:

Supervised Clinical Experience

Provide the following information about supervised clinical experience in 2016-17. ([§205\(a\)\(1\)\(C\)\(iii\)](#), [§205\(a\)\(1\)\(C\)\(iv\)](#))

[Additional guidance on reporting supervised clinical experience and nonclinical coursework.](#)

Average number of clock hours of supervised clinical experience required prior to student teaching	112
Average number of clock hours required for student teaching	540
Average number of clock hours required for mentoring/induction support	0
Number of full-time equivalent faculty supervising clinical experience during this academic year	7
Number of adjunct faculty supervising clinical experience during this academic year (IHE and PreK-12 staff)	23
Number of students in supervised clinical experience during this academic year	15

Please provide any additional information about or descriptions of the supervised clinical experiences:

Clinical experiences were supervised by the directors of the Teacher Education Program and the Elementary Education Program (with load time given at a ratio of three students equivalent to two hours of credit) and one adjunct professor (replacing the full-time faculty member on sabbatical leave). A full-time load at Bethel is considered twelve hours a semester. In addition, each content department (PreK-12, Secondary Education, and Special Education Candidates) provided additional support for candidates during student teaching. For the purposes of this report, 22 cooperating teachers (seven teacher candidates had dual student teaching placements) have also been included in the number of adjunct faculty (in addition to the one aforementioned adjunct faculty) in supervised clinical experience based on the Title II Tips for Reporting Guide.

Enrollment

THIS PAGE INCLUDES:

>> [Enrollment](#)

On this page, enter the number of candidates for an initial teaching credential who are enrolled in the initial teacher preparation programs within your institution of higher education (IHE) or organization. **Do not** report on the total number of students enrolled in the entire IHE. **Do not** include individuals who currently hold a teaching credential and are seeking additional licenses or endorsements, or individuals preparing for school-based careers other than classroom teachers (e.g., administrators, guidance counselors).

The Department recognizes that in many cases, candidates voluntarily report their race/ethnicity and gender data, and that in some cases, candidates may choose not to report this information. Please report on the race/ethnicity data you have available, though the data may not be complete. It is not expected that the sum of the enrolled students reported by race/ethnicity or by gender will necessarily equal the total number of students enrolled.

If your IHE offers both traditional and alternative programs, be sure to enter the candidates enrolled in the appropriate reports. For the traditional report, provide only the candidates enrolled in traditional programs within the IHE. For the alternative report, provide only the candidates enrolled in the alternative programs within the IHE.

After entering the enrollment data, save the page using the floating save box at the bottom of the page.

Enrollment

For the purpose of Title II reporting, an enrolled student is defined as a student who has been admitted to a teacher preparation program, but who has not completed the program during the academic year being reported. An individual who completed the program during the academic year being reported is counted as a program completer and *not* an enrolled student.

[Additional guidance on reporting race and ethnicity data.](#)

Total number of students enrolled in 2016-17	<input type="text" value="16"/>
Unduplicated number of males enrolled in 2016-17	<input type="text" value="8"/>
Unduplicated number of females enrolled in 2016-17	<input type="text" value="8"/>

Provide the number of students in the teacher preparation program in the following categories. Note that you must report on the number of students by ethnicity and race separately. Individuals who are non-Hispanic/Latino will be reported in one of the race categories. Also note that individuals can belong to one or more racial groups, so the sum of the members of each racial category may not necessarily add up to the total number of students enrolled. ([§205\(a\)\(1\)\(C\)\(ii\)\(H\)](#))

Teachers Prepared

On this page, enter the number of program completers by the subject area in which they were prepared to teach, and by their academic majors. Note that an individual can be counted in more than one academic major and subject area. For example, if an individual is prepared to teach Elementary Education and Mathematics, that individual should be counted in both subject areas. If no individuals were prepared in a particular academic major or subject area, you may leave the cell blank. Please use the "Other" category sparingly, if there is no similar subject area or academic major listed. In these cases, you should use the text box to describe the subject area(s) and/or the academic major(s) counted in the "Other" category.

If your IHE offers both traditional and alternative programs, be sure to enter the program completers in the appropriate reports. For the traditional report, provide only the program completers in traditional programs within the IHE. For the alternative report, provide only the program completers for the alternative programs within the IHE.

After entering the teachers prepared data, save the page using the floating save box at the bottom of the page.

THIS PAGE INCLUDES:

- >> [Teachers Prepared by Subject Area](#)
- >> [Teachers Prepared by Academic Major](#)

Teachers Prepared by Subject Area

Please provide the number of teachers prepared by subject area for academic year 2016-17. For the purposes of this section, number prepared means the number of program completers. "Subject area" refers to the subject area(s) an individual has been prepared to teach. An individual can be counted in more than one subject area. If no individuals were prepared in a particular subject area, please leave that cell blank. ([§205\(b\)\(1\)\(H\)](#))

[Additional guidance on reporting teachers prepared by subject area.](#)

Teachers Prepared by Academic Major

Please provide the number of teachers prepared by academic major for academic year 2016-17. For the purposes of this section, number prepared means the number of program completers. "Academic major" refers to the actual major(s) declared by the program completer. An individual can be counted in more than one academic major. If no individuals were prepared in a particular academic major, please leave that cell blank. ([§205\(b\)\(1\)\(H\)](#))

Please note that the list of majors includes several "Teacher Education" majors, as well as several noneducation majors. Please use care in entering your majors to ensure education-specific majors and non-education majors are counted correctly. For example, if an individual majored in Chemistry, that individual should be counted in the "Chemistry" academic major category rather than the "Teacher Education–Chemistry" category.

Program Completers

On this page, enter the total number of individuals who completed the program in AY 2016-17 and the two prior academic years. If you submitted an IPRC last year, the number of program completers for the two prior academic years are pre-loaded from your prior year's report.

A program completer is a person who has met all the requirements of a state-approved teacher preparation program. Program completers include all those who are documented as having met such requirements. Documentation may take the form of a degree, institutional certificate, program credential, transcript or other written proof of having met the program's requirements. In applying this definition, the fact that an individual has or has not been recommended to the state for initial certification or licensure may not be used as a criterion for determining who is a program completer.

An individual cannot be classified as both enrolled and as a program completer at the same time. An enrolled individual is not a program completer. Once an individual has met all the requirements of a state-approved teacher preparation program and becomes a program completer, the individual is no longer classified as enrolled.

After entering the program completers, save the page using the floating save box at the bottom of the page.

THIS PAGE INCLUDES:

>> [Program Completers](#)

Program Completers

Provide the total number of teacher preparation program completers in each of the following academic years.

2016-17	<input type="text" value="14"/>
2015-16	<input type="text" value="23"/>
2014-15	<input type="text" value="14"/>

Annual Goals

On this page, review the annual goals in each subject area listed below. If you submitted an IPRC last year, the goals you entered last year are pre-loaded from your prior year's report. Please respond to the questions to report on progress towards the goals, and set new goals for the next academic year.

After reviewing and updating as necessary, save the page using the floating save box at the bottom of the page.

THIS PAGE INCLUDES:

- >> [Annual Goals - Mathematics](#)
- >> [Annual Goals - Science](#)
- >> [Annual Goals - Special Education](#)
- >> [Annual Goals - Instruction of Limited English Proficient Students](#)
- >> [Assurances](#)

Annual Goals - Mathematics

Each institution of higher education (IHE) that conducts a traditional teacher preparation program (including programs that offer any ongoing professional development programs) or alternative route to state credential program, and that enrolls students receiving Federal assistance under this Act, shall set annual quantifiable goals for increasing the number of prospective teachers trained in teacher shortage areas designated by the Secretary or by the state educational agency, including mathematics, science, special education, and instruction of limited English proficient students. ([§205\(a\)\(1\)\(A\)\(ii\)](#), [§206\(a\)](#))

Information about teacher shortage areas can be found at <https://www2.ed.gov/about/offices/list/ope/pol/tsa.html>.

Please provide the information below about your program's goals to increase the number of prospective teachers in mathematics in each of three academic years.

Academic year 2016-17

1. Did your program prepare teachers in mathematics in 2016-17?

- Yes
 No (leave remaining questions for year blank)

2. How many prospective teachers did your program plan to add in mathematics in 2016-17?

1

3. Did your program meet the goal for prospective teachers set in mathematics in 2016-17?

- Yes
 No
 Not applicable

4. Description of strategies used to achieve goal, if applicable:

In conjunction with the Bethel College Admissions Department and Math Department, the Teacher Education Department actively targets prospective high school students, considering teaching as a profession. The department has also worked closely with math graduates to identify high schools students with promise in the area of mathematics. Members of the department regularly make presentations to area high schools. The department is currently in the process of developing a comprehensive recruitment plan, including hard to fill areas like mathematics, sciences, and special education as well as recruiting minorities into the field of education.

5. Description of steps to improve performance in meeting goal or lessons learned in meeting goal, if applicable:

Lesson learned: The state of Kansas, since 2012, has demonstrated through the passage of laws and finance bills, that it is not fully committed to meeting the requirements set forth in the Kansas Constitution, as established by the Kansas State Supreme Court. As such, we have seen statewide a dip in the number of teachers prepared (by about 25%). As the climate for teaching in the state improves, and the teacher shortage becomes more

pronounced, we believe that the candidates for teaching fields will once again increase. Lesson learned: Our math department has experienced a fair amount of turnover in recent years, we continue to average over one completer per year (13 in the last nine years). While we did prepare one candidate for licensure in 2016-17, that candidate did not fully complete the requirements and will be a program completer in the 2017-18 school year.

6. Provide any additional comments, exceptions and explanations below:

Academic year 2017-18

7. Is your program preparing teachers in mathematics in 2017-18?

- Yes
 No (leave remaining questions for year blank)

8. How many prospective teachers did your program plan to add in mathematics in 2017-18?

3

9. Provide any additional comments, exceptions and explanations below:

Our math department has experienced a fair amount of turnover in recent years, we continue to average over one completer per year (13 in the last eight years). We have struggled to attract teachers to the field given the education political climate in Kansas since 2012.

Academic year 2018-19

10. Will your program prepare teachers in mathematics in 2018-19?

- Yes
 No (leave remaining questions for year blank)

11. How many prospective teachers does your program plan to add in mathematics in 2018-19?

12. Provide any additional comments, exceptions and explanations below:

Annual Goals - Science

Each institution of higher education (IHE) that conducts a traditional teacher preparation program (including programs that offer any ongoing professional development programs) or alternative route to state credential program, and that enrolls students receiving Federal assistance under this Act, shall set annual quantifiable goals for increasing the number of prospective teachers trained in teacher shortage areas designated by the Secretary or by the state educational agency, including mathematics, science, special education, and instruction of limited English proficient students. ([§205\(a\)\(1\)\(A\)\(ii\)](#), [§206\(a\)](#))

Information about teacher shortage areas can be found at <https://www2.ed.gov/about/offices/list/ope/pol/tsa.html>.

Please provide the information below about your program's goals to increase the number of prospective teachers in science in each of three academic years.

Academic year 2016-17

1. Did your program prepare teachers in science in 2016-17?

- Yes
 No (leave remaining questions for year blank)

2. How many prospective teachers did your program plan to add in science in 2016-17?

1

3. Did your program meet the goal for prospective teachers set in science in 2016-17?

- Yes
 No
 Not applicable

4. Description of strategies used to achieve goal, if applicable:

In conjunction with the Bethel College Admissions Department and Biology/Chemistry Departments, the Teacher Education Department actively targets prospective high school students, considering teaching as a profession. The department has also worked closely with science graduates to identify high schools students with promise in the areas of biology and chemistry. Members of the department regularly make presentations to area high schools. The department is currently in the process of developing a comprehensive recruitment plan, including hard to fill areas like mathematics, sciences, and special education as well as recruiting minorities into the field of education.

5. Description of steps to improve performance in meeting goal or lessons learned in meeting goal, if applicable:

Lesson learned: The state of Kansas, since 2012, has demonstrated through the passage of laws and finance bills, that it is not fully committed to meeting the requirements set forth in the Kansas Constitution, as established by the Kansas State Supreme Court. As such, we have seen statewide a dip in the number of teachers prepared (by about 25%). As the climate for teaching in the state improves, and the teacher shortage becomes more pronounced, we believe that the candidates for teaching fields will once again increase.

6. Provide any additional comments, exceptions and explanations below:

Academic year 2017-18

3

3. Did your program meet the goal for prospective teachers set in special education in 2016-17?

- Yes
 No
 Not applicable

4. Description of strategies used to achieve goal, if applicable:

Special Education at Bethel College is achieved through a consortium of schools (the Associated Colleges of Central Kansas - ACCK). Each semester, faculty from ACCK present to lower level candidates in teacher education courses. In conjunction with the Bethel College Admissions Department, the Teacher Education Department actively targets prospective high school students, considering teaching as a profession. The department has also worked closely with graduates to identify high schools students with promise in the areas of special education. Members of the department regularly make presentations to area high schools. The department is currently in the process of developing a comprehensive recruitment plan, including hard to fill areas like mathematics, sciences, and special education as well as recruiting minorities into the field of education.

5. Description of steps to improve performance in meeting goal or lessons learned in meeting goal, if applicable:

Lesson learned: The state of Kansas, since 2012, has demonstrated through the passage of laws and finance bills, that it is not fully committed to meeting the requirements set forth in the Kansas Constitution, as established by the Kansas State Supreme Court. As such, we have seen statewide a dip in the number of teachers prepared (by about 25%). As the climate for teaching in the state improves, and the teacher shortage becomes more pronounced, we believe that the candidates for teaching fields will once again increase.

6. Provide any additional comments, exceptions and explanations below:

The numbers of students preparing to teach special education is declining statewide and we are experiencing that decline as well. Furthermore, with a

general teaching shortage, students (particularly elementary education) do not need to add special education endorsement in order to find a job. Because special education is not an initial license and the coursework required for the endorsement adds the equivalent of another major, some of our students have stopped out of the special education program midway. We need to review our advising and course schedules to determine if there are ways to make the special education endorsement program more manageable for students, and continue to encourage special education as an option.

Academic year 2017-18

Assurances

Please certify that your institution is in compliance with the following assurances. ([§205\(a\)\(1\)\(A\)\(iii\)](#), [§206\(b\)](#)) Note: Be prepared to provide documentation and evidence for your responses, when requested, to support the following assurances.

1. Preparation responds to the identified needs of the local educational agencies or States where the program completers are likely to teach, based on past hiring and recruitment trends.

- Yes
- No

2. Preparation is closely linked with the needs of schools and the instructional decisions new teachers face in the classroom.

- Yes
- No

3. Prospective special education teachers are prepared in core academic subjects and to instruct in core academic subjects.

- Yes
- No
- Program does not prepare special education teachers

4. Prospective general education teachers are prepared to provide instruction to students with disabilities.

- Yes
- No

5. Prospective general education teachers are prepared to provide instruction to limited English proficient students.

- Yes
- No

6. Prospective general education teachers are prepared to provide instruction to students from low-income families.

- Yes
- No

7. Prospective teachers are prepared to effectively teach in urban and rural schools, as applicable.

- Yes
- No

8. Describe your institution's most successful strategies in meeting the assurances listed above:

Bethel College has created partnerships with local school districts as well as with schools in the Wichita School District (Wichita is the largest city in Kansas). Through these partnerships, Bethel candidates have the opportunity to work directly with students from diverse backgrounds (e.g., racial/ethnic, language, Socioeconomic Status, gender, rural/urban, and ability/special needs). Course work is directly tied to field experiences. Bethel has been most successful when incorporating field experiences in classes to support the course content. Specifically, candidates in Adaptive Special Education must achieve an initial license in a core academic subject and Special Education is an added endorsement to the existing license. General education teachers receive training in providing instruction to children with disabilities throughout the curriculum, but most significantly through the course, EDU 210 Introduction to Infants, Children and Youth with Special Needs. As part of course requirements, candidates are required to participate in field experiences in special needs classrooms and in regular education classrooms with special needs students included. General education teachers receive training in providing instruction to limited English proficient students, in providing instruction to children from low-income families, and on how to effectively teach in urban and rural schools throughout general and content specific methods courses, as well as through the course, EDU 310 School and Community.

Low-Performing

THIS PAGE INCLUDES:

>> [Low-Performing](#)

On this page, review the questions regarding your program's approval/accreditation and whether your program has been designated as low performing by the state. If you submitted an IPRC last year, this section is pre-loaded from your prior year's report; please review and update as necessary.

After reviewing and updating as necessary, save the page using the floating save box at the bottom of the page.

Low-Performing

Provide the following information about the approval or accreditation of your teacher preparation program. ([§205\(a\)\(1\)\(D\)](#), [§205\(a\)\(1\)\(E\)](#))

1. Is your teacher preparation program currently approved or accredited?

- Yes
 No

If yes, please specify the organization(s) that approved or accredited your program:

- State
 NCATE
 TEAC
 CAEP
 Other specify:

2. Is your teacher preparation program currently under a designation as "low-performing" by the state (as per section 207(a) of the HEA of 2008)?

- Yes
 No

Use of Technology

On this page, review the questions regarding your program's use of technology. If you submitted an IPRC last year, this section is pre-loaded from your prior year's report; please review and update as necessary.

After reviewing and updating as necessary, save the page using the floating save box at the bottom of the page.

THIS PAGE INCLUDES:

>> [Use of Technology](#)

Use of Technology

1. Provide the following information about the use of technology in your teacher preparation program. Please note that choosing 'yes' indicates that your teacher preparation program would be able to provide evidence upon request. ([§205\(a\)\(1\)\(F\)](#))

Does your program prepare teachers to:

- a. integrate technology effectively into curricula and instruction

Yes
 No

- b. use technology effectively to collect data to improve teaching and learning

Yes
 No

- c. use technology effectively to manage data to improve teaching and learning

Yes
 No

- d. use technology effectively to analyze data to improve teaching and learning

Yes
 No

2. Provide a description of the evidence that your program uses to show that it prepares teachers to integrate technology effectively into curricula and instruction, and to use technology effectively to collect, manage, and analyze data in order to improve teaching and learning for the purpose of increasing student academic achievement. Include a description of the evidence your program uses to show that it prepares teachers to use the principles of universal design for learning, as applicable. Include planning activities and a timeline if any of the four elements listed above are not currently in place.

Candidates learn how to integrate technology into curricula and introduction through coursework and related activities. EDU300 Media and Computer for Educators introduces teachers to a variety of technology tools and issues related to the integration of these tools. Content Methods courses further explain how to integrate technology into specific content areas. Candidates demonstrate their ability to effectively integrate technology in instruction during the student teaching experience. Candidates learn to use technology effectively to collect, manage, and analyze data to improve teaching and learning in EDU325 Methods of Teaching and within content specific methods courses. The ability of candidates to use technology to effectively collect, manage, and analyze data to improve teaching and learning is assessed during their student teaching semester in the course EDU460A/EDU475A Practicum/Seminar in Student Teaching. Assessment is completed through the use of the Kansas Performance Teaching Portfolio (KPTP) and the Student Teaching Evaluation Scale completed by college supervisors and cooperating teachers.

Teacher Training

THIS PAGE INCLUDES:

>> [Teacher Training](#)

On this page, review the questions about how your program trains general education teachers and special education teachers. For the purposes of these questions, general education teachers means those who are not specifically prepared as special education teachers. If you submitted an IPRC last year, this section is pre-loaded from your prior year's report; please review and update as necessary.

After reviewing and updating as necessary, save the page using the floating save box at the bottom of the page.

Teacher Training

Provide the following information about your teacher preparation program. Please note that choosing 'yes' indicates that your teacher preparation program would be able to provide evidence upon request. [\(§205\(a\)\(1\)\(G\)\)](#)

1. Does your program prepare general education teachers to:

a. teach students with disabilities effectively

- Yes
 No

b. participate as a member of individualized education program teams

- Yes
 No

c. teach students who are limited English proficient effectively

- Yes
 No

2. Provide a description of the evidence your program uses to show that it prepares general education teachers to teach students with disabilities effectively, including training related to participation as a member of individualized education program teams, as defined in section 614(d)(1)(B) of the Individuals with Disabilities Education Act, and to effectively teach students who are limited English proficient. Include planning activities and a timeline if any of the three elements listed above are not currently in place.

Bethel College prepares all teachers to teach students with disabilities in inclusive classrooms. In EDU 210 Introduction to Infants, Children, and Adults with Special Needs, students learn about RTI (Response to Intervention) and the Kansas MTSS (Multi-tiered Support System) three-tiered framework set up to help all children learn prior to referral to special education. By understanding the process of MTSS, Bethel's teacher candidates learn the importance of being able to differentiate instruction so all students can learn. If students are not learning after tier 3 of documented differentiation and interventions, the student may be referred to a student assistance team and then evaluated as to if they qualify for special education. Additional suggestions for effective teaching of special needs students are discussed in both general methods and specific content methods courses. Bethel's teacher candidates learn that general education teachers play a vital role in the IEP process by helping develop goals, monitoring, and assessing students with special needs and collecting data. Bethel College Teacher candidates understand they must give modifications and accommodations to students with disabilities as required by law. General education teachers learn about models for teaching limited English proficient (LEP) students in EDU 310 School and Community and general methods courses. Specific strategies for assisting LEP students in general classrooms are also discussed and applied in lesson plan modifications. EDU 310 field placements in ELL classrooms (and in a dual language magnet K-8 school) allow general education teachers to observe firsthand how students acquire another language. Additional suggestions for effective teaching of LEP students are discussed in specific content methods courses.

3. Does your program prepare special education teachers to:

a. teach students with disabilities effectively

- Yes
- No
- Program does not prepare special education teachers

b. participate as a member of individualized education program teams

- Yes
- No
- Program does not prepare special education teachers

c. teach students who are limited English proficient effectively

- Yes
- No
- Program does not prepare special education teachers

4. Provide a description of the evidence your program uses to show that it prepares special education teachers to teach students with disabilities effectively, including training related to participation as a member of individualized education program teams, as defined in section 614(d)(1)(B) of the Individuals with Disabilities Education Act, and to effectively teach students who are limited English proficient. Include planning activities and a timeline if any of the three elements listed above are not currently in place.

Note: The endorsement for Special Education in Kansas is not offered through an initial license, but rather is an added endorsement to an existing license. Teach students with disabilities effectively: Bethel College prepares special education teachers to teach students with disabilities effectively through the Associated Colleges of Central Kansas (ACCK). ACCK is a consortium of the six area member colleges of Bethany College at Lindsborg, Bethel College at North Newton, Kansas Wesleyan University at Salina, McPherson College at McPherson, Sterling College at Sterling, and Tabor College at Hillsboro. Undergraduate and post-baccalaureate students are enrolled in one of the member colleges to pursue endorsement in high-incidence special education at the K-6, 6-12, and PK-12 levels, and ACCK provides the undergraduate endorsement coursework that includes field experience for three of the four courses. ACCK has developed an assessment system that is aligned with its conceptual framework, Kansas High-Incidence Special Education Standards, and national standards for teacher accreditation. ACCK has a fully accredited program. The assessment system includes content-based assessment (Praxis II), assessment of the candidate's ability to plan instruction, assessment of clinical experience, assessment of candidate's effect on student learning, philosophical/historical/legal foundations, assessment, and managing behavior/problem-solving/social skills. ACCK students consistently meet or exceed standards. Students unable to meet standards are not formally accepted into the ACCK Adaptive Special Education Program, which is required before clinical experience (student teaching). Cooperating teachers rank ACCK students as proficient or distinguished on final assessment conference reports. Participate as a member of individualized education program teams: ACCK prepares special education teachers to participate as a member of individualized education program (IEP) teams. Coursework assignments include observation of an IEP and IEP team meeting, IEP videos/simulations, lecture captures on IEPs, planning of an IEP based on a case study, and preparation of an IEP during student teaching (clinical experience). Teach students who are limited English proficient effectively: ACCK prepares special education teacher to work effectively with diversity, including limited English proficiency. Coursework includes diversity interviews, diversity issues in assessment, diversity reference materials, lecture captures on diversity, reading programs for limited English proficient learners, and an oral exam with diversity questions.

Contextual Information

On this page, review the contextual information about your program. If you submitted an IPRC last year, this section is pre-loaded from your prior year's report; please review and update as necessary.

After reviewing and updating as necessary, save the page using the floating save box at the bottom of the page.

Contextual Information

Please use this space to provide any additional information that describes your teacher preparation program(s). You may also attach information to this report card (see below). The U.S. Department of Education is especially interested in any evaluation plans or interim or final reports that may be available.

The Teacher Education Programs at Bethel College are accredited by the Kansas State Department of Education (KSDE) and the National Council for Accreditation of Teacher Education (NCATE). The institution submitted programs for approval on March 1, 2010; all programs were approved. The institution hosted a joint KSDE/NCATE on-site visit in Spring 2011 with full continuing accreditation granted by the NCATE Board of Examiners and the Kansas State Board of Education. Bethel College Mission: Bethel College is an independent institution of higher education. The mission of the college is to prepare students, through active learning and rigorous instruction imbued with the spirit of liberal arts, to become critical thinkers and engaged global citizens. Teacher Education Mission: The faculty in the department of teacher education at Bethel College is dedicated to preparing reflective teachers. The education program is designed to develop proficiencies in academic and professional knowledge bases and those dispositions that provide a grounding for reflective thinking, particularly those of caring and respect for diversity. The program is embedded with the belief that reflective thinking is congruent with effective practice. Teacher Education Vision: The vision of the faculty in the department of teacher education at Bethel College is to have a teacher education program embedded with reflection. Students reflect on their content knowledge to be better able to sequence learning, to understand underlying relationships, to prioritize and distill the essence of the content. Students reflect on pedagogical practice, observing, evaluating, comparing, examining results, looking for reasons and consequences. Our vision also includes students developing a better understanding of their own beliefs and philosophies and under the light of reflection becoming teachers who will be caring and respectful of diversity. See the following web sites for additional Bethel College notable features and accomplishments: <http://www.bethelks.edu/> <http://www.bethelks.edu/academics/areas-study/teacher-education> <http://www.bethelks.edu/news-events/publications/>
